Professional Profile

Full Stack Developer with experience in frontend and backend development. Proficient in JavaScript, React, and TypeScript for UI development, as well as PHP with Laravel, Java, and Spring Boot for backend services. Experienced in building scalable web applications, CMS-style platforms, and RESTful APIs with a strong focus on performance, maintainability, and clean architecture.

Technical Skills

- **Frontend:** JavaScript, React, TypeScript, HTML, CSS, TailwindCSS, Redux, React Hook Form, Axios
- **Backend:** Java, Spring Boot, PHP, Laravel, Node.js, Express, REST APIs, JWT Authentication
- **Databases:** MySQL, PostgreSQL, MongoDB
- **DevOps & Tools:** Git, GitHub, Docker, Postman, Swagger

Work Experience

Frontend Developer

Esporadix | 2025

- Developed Software as a Service using React, Next.js, Tailwind CSS, and TypeScript.
- Integrated REST APIs and contributed to backend-driven features using PHP and Laravel.
- Created dynamic forms, real-time dashboards, and reusable components.
- Integrated secure REST APIs and ensured cross-browser compatibility.
- Implemented automated testing with Cypress and Jest.

Full Stack Developer Intern

ltransition | 2024

- Developed full-stack applications using React, TypeScript, and TailwindCSS for UI and Node.js with MongoDB for backend.
- Designed and implemented REST APIs with Express, Swagger documentation, and authentication using JWT.
- Contributed to *ltemplates*, a form-building application with validation, CSV export, and user authentication.

Process Engineer

EFTEC | 2018 - 2024

- Managed client requirements compliance and improvements in the Integrated Management System.
- Implemented *5W+1H* and *5S* methodologies to enhance operational efficiency.
- Conducted data analysis and generated KPI reports.

Engineering Intern

Federal Mogul | 2015

- Collaborated in quality testing and production control.
- Optimized processes in the supply chain.

Education

- Full Stack Web Developer Certification (2023)
- Java Full Stack Developer Certification (2024)
- Mechanical and Electrical Engineering - Benemérita Universidad Autónoma de Puebla (2009 – 2014)
- Bachelor of Music - Conservatorio de Música de Puebla (2012 – 2018)

Languages

- Spanish: Native
- English: Professional Level (C1)

Highlighted Projects

Evolux Flooring Platform (PHP, Laravel, MySQL)

Designed and developed a complete end-to-end web platform, including a custom CMS-style administration panel for managing products and site content. Implemented full CRUD functionality, database migrations, and a structured MVC architecture, along with responsive public-facing views and an administrative dashboard focused on usability and maintainability.

Alpha Management (React, TypeScript, TailwindCSS, Axios, Cypress, contextAPI)

Developed SaaS-style web platforms for political campaigns using Next.js, React, and TailwindCSS, featuring authentication, dashboards, and reusable UI components.

Alethia Platform (React, TypeScript, TailwindCSS, Axios, Cypress, contextAPI)

Developed a scalable citizen engagement platform with reusable components, optimized performance, and modern UI/UX principles. Built with a SaaS-style architecture, focusing on accessibility, responsiveness, and maintainability.
